**IMPERIAL CITY COUNCIL
 AGENDA ITEM**

SUBJECT: DISCUSSION/ACTION: <p style="text-align: center;">Award engineering design services for the Aten Boulevard and Cross Road Intersection Improvements Project – RFP 2019-01.</p>	
DEPARTMENT INVOLVED: COMMUNITY DEVELOPMENT DEPARTMENT	
BACKGROUND/SUMMARY: <p>With the opening of Cross Elementary in August 2019, city staff released request for proposals to known qualified engineering firms in the Imperial Valley and Southern California Regions for engineering services to design the Aten Boulevard and Cross Road intersection improvements. These improvements will include sidewalk, upgrading existing traffic signal hardware by installing new pedestrian countdown signal heads, accessible pedestrian signal (APS) push buttons, asphalt road resurfacing plans, and ADA compliant curb ramps and crosswalk striping.</p> <p>The project will be funded through LTA Measure D, which provides for a half –cent transportation sales tax. 92% of the funds collected go directly to the cities and County to pay for critical road repair projects, 5% is targeted for regional projects, 2% for transit projects and 1% for administration. These funds make the majority of road repairs possible for local cities and the County.</p> <p>The following three engineering firms submitted proposals:</p> <ol style="list-style-type: none"> 1. LC Engineering Consultants \$61,480.00 2. Nicklaus Engineering \$58,365.00 3. Dynamic Consulting Engineers \$30,710.00 <p>After carefully reviewing each proposal submitted, staff is recommending the project be awarded to Dynamic Consulting Engineers as it is the lowest proposal and most advantageous to the city.</p>
