City of Imperial Traffic Commission

RE: Request for consideration/approval to re-routing South “B” Street

Traffic Commission,

As the Public Works Director, I am requesting your consideration/approval to re-route South “B” Street. This request is due to ongoing construction, the upgrade performed for the “B” Street lift station, and the fact the street is a very narrow street. The following are facts I strongly feel this commission should be made aware of:

1. The road is 26.9 feet wide
2. Finish construction will be 2.5 feet from edge of pavement.
3. With one vehicle parked by the curb there is 18.3 feet to the edge of pavement
4. With a second vehicle parked or traveling there is 9.8 feet to the edge of pavement.

Prior to completion of construction to the “B” Street lift station, you should be made aware of these facts before the road is opened for use by the motoring public. My recommendation is that you approve the one way routing of “B” Street with one way traveling south on “B” and east on “4th” up to the connection of “C” Street. Parking should continue to be allowed along the west side of “B” Street as it is today.

Respectfully,

Jackie Loper
Public Services Director
