DEPARTMENT INVOLVED: Administrative Services

**BACKGROUND/SUMMARY:**

The Council should consider adoption of these three resolutions for intent to initiate proceedings for the levy and collection of assessments for fiscal year 2020/21, order an engineer's report, and set a public hearing. Following the intent meeting and Adoption of the resolutions, a public hearing will be held on July 1, 2020 to take testimony and adopt resolutions to accept the engineer's report and approve a levy for fiscal year 2020/21.

The proposed Fiscal Year 2020/21 annual assessment is \$395.84 per Parcel for Wildflower and \$383.48 per Parcel for Paseo del Sol, which are equal to the maximum assessment rates allowed.

**FISCAL IMPACT: NOT TO EXCEED**

The funds generated are used for the purposes stated in the original formation of this district. Each year the assessments on individual parcels may be increased up to the Consumer Price Index.

## I. OVERVIEW

---

### A. INTRODUCTION

The City of Imperial (“City”) annually levies and collects special assessments in order to continue the maintenance of the improvements within the Imperial Landscape Maintenance District No. 1 (“District”). The District was formed and annual assessments are levied, pursuant to the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code* (“1972 Act”) and in compliance with the substantive and procedural requirements of the *California State Constitution*” Article XIII D (“Article XIII D”).

This report constitutes the annual update of the Engineer’s Report (“Report”) which provides updated information regarding the budget and factors that affect the assessment. The annual budget for the maintenance and operation of the improvements is based on estimated expenses for the upcoming fiscal year. Parcels within the District are assessed proportionately for only those improvements and services that are a special benefit as determined in the original formation Engineer’s Report.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number by the Imperial County Assessor’s Office. The Imperial County Auditor/Controller uses Assessment Parcel Numbers and specific Fund Numbers, to identify on the tax roll, properties assessed for special district benefit assessments.

Following consideration of all public comments and written protests at a noticed Public Hearing, the City Council will confirm the Report as submitted or amended and order the levy and collection of assessments for Fiscal Year 2020/21 pursuant to the 1972 Act. The assessment information approved will be submitted to the County Auditor/Controller and included on the property tax roll for each benefiting parcel.

In November 2001, the District was formed comprising of one zone of improvement, Zone 2001-01 (Wildflower). The formation was pursuant to City Council resolution following a property owner protest ballot proceeding, conducted in compliance with the provisions of Article XIII D Section 4, to approve and confirm the Maximum Assessments and an Assessment Range Formula (inflationary factor) for Zone 2001-01 (Wildflower) District. In February 2002, a second zone of improvement, Zone 2001-02 (Paseo del Sol), was annexed into the District following a similar property owner protest ballot proceeding, conducted in compliance with the provisions of Article XIII D Section 4, to approve and confirm the Zone 2001-02 (Paseo del Sol) Maximum Assessments and an Assessment Range Formula (inflationary factor). Although the City Council must consider all property owner comments or protests prior to levying an annual assessment each year, the Council may approve any proposed assessment that is less than or equal to the adjusted maximum assessment rate previously approved for each zone.

The Constitutional provisions of Article XIID do not alter the non-conflicting provisions of the 1972 Act and this Report and the method of apportionment contained herein utilize commonly accepted assessment engineering practices consistent with the Act and the provisions of the Constitution. All new or increased assessments (including any annexations) will be subject to the substantive and procedural requirements of Article XIID Section 4. Changes in land use or parcel subdivisions resulting in an increase to a particular parcel or group of parcels are not considered an increased assessment.

## **II. DESCRIPTION OF THE DISTRICT**

---

### **A. BOUNDARIES OF THE DISTRICT**

The boundaries of the District are non-contiguous and consist of all parcels with the Zone 2001-01 (Wildflower) and Zone 2001-02 (Paseo del Sol). A map showing the boundaries of the District has been previously filed with the City Clerk and by reference is made part of this Report.

#### **1. Zone 2001-01 (Wildflower)**

Zone 2001-01 (Wildflower) is located in the west portion of the City, generally South of Joshua Tree Street and West of La Brucherie Road. Zone 2001-01 (Wildflower) consists of all assessable parcels located in the Wildflower No. 8 subdivision.

#### **2. Zone 2001-02 (Paseo Del Sol)**

Zone 2001-02 (Paseo del Sol) is located in the northeast portion of the City, generally North of Aten Road, and East of Highway 86. Zone 2001-02 (Paseo del Sol) consists of all parcels located in the Paseo del Sol subdivision.

### **B. DESCRIPTION OF THE DISTRICT IMPROVEMENTS AND SERVICES**

Landscape improvements provided in the District may include but are not limited to: turf, ground cover, shrubs and trees, sprinkler and irrigation systems, ornamental lighting, drainage systems, masonry walls, entryway monument, and associated appurtenances. These improvements include all necessary service; operations; administration; and maintenance required to keep the above-mentioned improvements in a healthy, vigorous, and satisfactory working condition. The City utilizes the services of landscape maintenance contractors and City crews for all regularly scheduled landscape maintenance. The specific locations of improvements within each zone of the District are described in the following section.

The District provides and ensures the continued maintenance, servicing, administration, and operation of various landscape improvements and associated appurtenances located within the District.

**Landscaped Easements** – The location of landscaped easements, including street trees, may include, but are not limited to: Joshua Tree Street, La Brucherie Road in Zone 2001-01 (Wildflower) and Cross Road in Zone 2001-02 (Paseo del Sol).

**Storm Drain Basin Maintenance** – The location of the storm drain basin to be maintained by the assessments is located at the south side of the Wildflower development in Zone 2001-01 (Wildflower) and the east end of the Paseo del Sol development in Zone 2001-02 (Paseo del Sol).

The assessable parcels receive special benefit from the ongoing maintenance of the landscaping, irrigation and drainage systems within the boundaries of the District. Specific improvements include all ground cover, turf, shrubs, trees, and associated appurtenances. The services provided include all necessary operations, administration, and maintenance required to keep the above-mentioned improvements in a healthy, vigorous, and satisfactory condition.

The District through annual assessments budgeted and reviewed each fiscal year, funds the continued maintenance of these improvements. All assessable parcels identified as being within the District, share in both the cost and the benefits of the improvements. The costs associated with the improvements are equitably spread among all benefiting parcels within the District in proportion to the benefit received. The funds collected are dispersed and used for only the operation and servicing of the District improvements.

The detailed plans and specifications for the improvements are on file in the office of the City Clerk and the City Engineer where they are available for public inspection. The plans and specifications for the improvements are voluminous and are not bound in this Engineer's Report but by this reference are incorporated herein and made a part of this Engineer's Report.

#### **C. DISTRICT BOUNDARY MAP**

Assessment District boundary maps have been prepared for the Landscape Maintenance Assessment District in the format required by the 1972 Act, and are on file with the City Clerk, and, by reference, are made part of this Report. A subdivision map showing each of the parcels included within the boundaries of the District is incorporated as Appendix "B" to this Report.

### III. METHOD OF APPORTIONMENT

---

#### A. GENERAL

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”*

The formula used for calculating assessments in this District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on benefit to each parcel.

In addition, pursuant to *Article XIID* Section 4 a parcel’s assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits may be assessed and the District must separate the general benefits from the special benefits. Therefore, the District assesses only for improvements that provide special benefit and any improvements considered general benefit have been eliminated from the District Assessments.

#### B. BENEFIT ANALYSIS

##### 1. Special Benefits

The method of apportionment (method of assessment) is based on the premise that each assessed parcel receives benefit from the improvements maintained and funded by the assessments. Specifically, landscape improvements installed in connection with the development of these parcels. The desirability of properties within the District is enhanced by the presence of well-maintained landscaping and amenities in close proximity to those properties.

The improvements generally include landscaped parkways, entryways, and appurtenant facilities. The annual assessments outlined in this Report are based on the estimated costs to provide all necessary service, operation, administration, and maintenance required each year to keep these improvements in a healthy, vigorous, and satisfactory condition and benefit the properties. The special benefits associated with the local landscaping improvements are specifically:

- Enhanced desirability of properties through association with the improvements.
- Improved aesthetic appeal of properties within the District providing a positive representation of the area.

- Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- Environmental enhancement through improved erosion resistance, and dust and debris control.
- Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.
- Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities.
- Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

All of the preceding special benefits contribute to a specific enhancement and desirability of each of the assessed parcels within the District and thereby provide a special enhancement to the property.

## 2. General Benefits

It has been determined that the lots or parcels within this District receive unique and special benefits from the maintenance of the improvements within the District. The improvements maintained by the District were installed and constructed in connection with the development of properties within the District and were neither required nor necessarily desired by properties outside the District boundaries. It has been determined that these improvements and the ongoing maintenance of those improvements provide special benefits to the parcels within the District and no parcels outside the District area benefit from the maintenance of the improvements within the District. Therefore, there are no benefits of a general nature to properties outside the District boundaries or the public at large.

## C. ASSESSMENT METHODOLOGY

Pursuant to the Act, the costs of the District may be apportioned by any formula or method, which fairly distributes the net amount to be assessed, among all assessable parcels in proportion to the estimated special benefits to be received by each such parcel from the improvements. The special benefit formula used within the District should reflect the composition of the parcels, and the improvements and services provided, to fairly proportion the costs based on estimated special benefit to each parcel.

This District utilizes an Equivalent Dwelling Unit (EDU) method of apportionment. The EDU method of apportionment uses the single-family residential parcel as the basic unit of assessment. The typical single-family residential parcel is assigned one (1.0) Equivalent Dwelling Unit. Every other land-use or property type is converted to EDU's based on an assessment formula that equates the property's specific development status, type of development (land-use), and size of the property, as compared to typical single-family residential parcel.

**Single Family Residential** – This land use is defined as a fully subdivided residential home site with or without a structure. This land use is assessed 1.0 EDU per lot or parcel. This is the base value that all other properties are compared and weighted against (i.e. Equivalent Dwelling Unit EDU).

**Multifamily Residential** – This land use is defined as a fully subdivided residential parcel that has more than one residential unit developed on the property. This land use is assessed 1.0 EDU per unit.

**Planned-Residential Development** – This land use is defined as any property not fully subdivided with a specific number of proposed residential lots to be developed on the parcel. This land use type is assessed at 1.0 EDU per planned (proposed) residential lot.

**Vacant Multi-Residential** – This land use is defined as property currently zoned for residential development, but a tentative or final tract map has not been submitted and/or approved. This land use is assessed at 1.0 EDU per acre. Parcels less than 1 acre are assigned a minimum of 1.0 EDU. Parcels over 50 acres are assigned a maximum of 50 EDU.

**Exempt Parcels** – This land use identifies properties that are not assessed and are assigned 0.00 EDU. This land use classification may include but is not limited to lots or parcels identified as public streets and other roadways (typically not assigned an APN by the County); dedicated public easements, rights-of-way, public greenbelts and parkways; utility rights-of-ways; common areas, sliver parcels and bifurcated lots or any other property that cannot be developed, publicly owned properties that are part of the District improvements or that have little or no improvement value. These types of parcels are considered to receive little or no benefit from the improvements and are therefore exempted from assessment.

The following table provides a listing of land use types, the Equivalent Dwelling Unit factor applied to that land use type, and the multiplying factor used to calculate each parcel’s individual EDU.

**Table 1  
Land Use Designation**

PROPERTY TYPE	EDU	MULTIPLIER
Single Family Residential	1.000	per Unit/Lot/Parcel
Multi-family Residential	1.000	per Unit
Planned-Residential Development	1.000	per Planned Residential Lot
Vacant Multi-Residential	1.000	per Acre or portion of an Acre
Exempt	0.000	per Parcel

The EDU method of apportioning benefit is typically seen as the most appropriate and equitable assessment methodology for calculating benefit in Districts formed under the 1972 Act, as the benefit to each parcel from the improvements are apportioned as a

function of land-use type, size and development. The following outlines the EDU applied to the various parcels and properties within this District:

- **Zone 2001-01 (Wildflower)** – One hundred nineteen (119) single-family residential parcels, each receiving full and equal special benefit from the improvements. These parcels are assigned an Equivalent Dwelling Unit of 1.0 EDU to reflect their special benefits.
- **Zone 2001-02 (Paseo del Sol)** – One hundred thirty (130) single-family residential parcels, each receiving full and equal special benefit from the improvements. These parcels are assigned an Equivalent Dwelling Unit of 1.0 EDU to reflect their special benefits.

The Total Equivalent Dwelling Units (EDU) for Zone 2001-01 (Wildflower) in Fiscal Year 2020/21 is 119 EDU's.

The Total Equivalent Dwelling Units (EDU) for Zone 2001-02 (Paseo del Sol) in Fiscal Year 2020/21 is 130 EDU's.

The Levy per Equivalent Dwelling Unit, or Rate, applied to each parcel is the result of dividing the total Balance to Levy for each Zone, by the sum of the Zone EDU's, for the fiscal year. This Rate is multiplied by each parcel's individual EDU to determine the parcel's levy amount.

The following formulas are used to calculate the assessment for each parcel:

**Formula**

$$\begin{aligned} \text{Total Balance to Levy} / \text{Total EDU} &= \text{Levy per EDU} \\ \text{Parcel EDU} \times \text{Levy per EDU} &= \text{Parcel Levy Amount} \end{aligned}$$

**D. ASSESSMENT RANGE FORMULA**

Any new or increased assessment requires certain noticing and meeting requirements by law. Prior to the passage of Proposition 218 (*California Constitution Articles XIIC and XIID*), legislative changes in the Brown Act defined a "new or increased assessment" to exclude certain conditions. These conditions included "any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed." This definition and conditions were later confirmed through Senate Bill 919 (Proposition 218 implementing legislation).

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and an inflationary adjustment to annual assessments without requiring costly noticing and mailing procedures, which could add to the District costs and assessments. As part of the District formation, a property owner protest ballot proceeding was conducted pursuant to the California State Constitution Article XIID Section 4. This property owner

protest ballot proceeding includes the establishment of an initial Maximum Assessment as well as an Assessment Range Formula.

Generally, if the proposed annual assessment (levy per EDU) for the current fiscal year is less than or equal to the calculated Maximum Assessment, then the proposed annual assessment is not considered an increased assessment. The Maximum Assessment is equal to the initial Assessment (approved by property owners) increased each year, based upon the latest composite percentage change in the Consumer Price Index, All Urban Consumers, for the Riverside-San Bernardino-Ontario Area ("CPI"), as determined by the United States Department of Labor, Bureau of Labor Statistics, or its successor.

The Engineer shall compute the percentage difference between the percentage change each year in CPI for March and the CPI for the previous March. The Engineer shall then adjust the previous maximum assessment rate by an amount not to exceed the percentage change for the upcoming fiscal year. Should the Bureau of Labor Statistics revise such index or discontinue the preparation of such index, the Engineer shall use the revised index or a comparable system as approved by the City Council for determining fluctuations in the cost of living.

Beginning in the second fiscal year (Fiscal Year 2002/03), for Zone 2001-01 (Wildflower) and beginning in the second fiscal year (Fiscal Year 2003/04), for Zone 2001-02 (Paseo del Sol) and each fiscal year thereafter, the Maximum Assessment will be recalculated and a new Maximum Assessment established. The Maximum Assessment is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment (rate per EDU) less than or equal to this Maximum Assessment is not considered an increased assessment, even if the proposed assessment is much greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment will increase each year, the actual District assessments may remain virtually unchanged. The Maximum Assessment adjustment is designed to establish a reasonable limit on District assessments. The Maximum Assessment calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjustment maximum amount. If the budget and assessments for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated require an increase greater than the adjusted Maximum Assessment then the assessment is considered an increased assessment. To impose an increased assessment the City must comply with the provisions of the Constitution Article XIID Section 4(c) that requires a public hearing and certain protest procedures including mailed notice of the public hearing and property owner protest balloting. Property owners, through the balloting process, must approve the proposed assessment increase. If the proposed assessment is approved, then a new Maximum Assessment is established for the District. If the proposed assessment is not approved, the City may not levy an assessment greater than the adjusted Maximum Assessment previously established for the District.
